Mr. Kitchen

PROFILE FOR BUILDERS AND DEVELOPERS

The power of collaboration

Mr. Kitchen is a modular kitchen facility that is created with a wide range of consumers in mind. Its facilities reach out to both the sets of consumers: those who have already used modular kitchens and are looking forward to renovating with more modern and contemporary kitchen style and also those for whom this may be the first experience of creating a modular kitchen.

The whole idea is that with Mr. Kitchen, “modular kitchens” become a more easy, acceptable and approachable concept. The brand is differentiated by its name where it also targets the husband or the male member of the family by including him in a typically female domain, the kitchen.

Just like your company, we wish to offer our customers high quality products to initiate a long-term relationship. Truly, when the goals are similar, synergies are beneficial for all.

Complete range of kitchen solutions

The kitchen is one of the most important aspects of decision making for a family while buying a house. And we offer the perfect solution for it with our range of complete solutions for kitchens that prove time saving and economical for you and ultimately your customers as well.

By associating with Mr. Kitchen, you can expect access to the finest quality of kitchen products that you offer your buyers at reasonable pricing, committed time delivery and can be seen at any of our eight easily accessible outlets. As you aspire to make your project unique, our signature pre-fabricated kitchens with protective covering, bottom on wheels and detachable baskets add great value, unlike anything else.

Our 7000 sq. feet state-of-the-art production facility at Kondhwa, Pune is equipped with latest machinery and hardware for precision work and great quality. The production capacity has reached 200 designer modular kitchens per month and is set to increase. Our wide range of intelligent designs understand consumers' needs and make maximum utilization of space.

We have a fast growing network of outlets already spread across Pune. Each outlet has a team of designers who help with the entire process of getting a modular kitchen. Our own transport facility provides logistics support for supply and installation.

Our esteemed clients

Over the last five years, we have proved our capability as a reliable supplier of modular kitchens and accessories. We have successfully handled installations all over Maharashtra and neighbouring states. We are proud to have provided our expertise to Expat Builders, Wellworth Group, Saarthi Group, Sukhwani Builders, Bhandari Associates, Vilas Jawdekar Group, Home Corporation (VT Palresha Group), Namrata Builders, A.K. Life Spaces (Ahmednagar), SVRS Builders (Hyderabad), Sri Ganga Developers (Gulbarga), Aswani Builders and many others.

We look forward to associating with you to create best quality homes in every way.
